### About Panama Banks:

Panamanian Banks are of the most stable banks in the world, being home to the second largest international banking center in the world next to Switzerland. Panama also has the best bank secrecy laws available in the world today.

There are approximately 150 international banks in Panama. We have relationships with a variety of international banks in Panama through which we open accounts for our clients. However, we mainly open accounts for our clients through our primary correspondent banks, with whom we have excellent working relationships.

All of our clients are handled by the Private Banking Departments of our primary correspondent banks. A bilingual, English and Spanish speaking Private Banking Official is assigned to each account, and our client is provided with that persons contact information for direct communication for executing banking transactions.

### **Credit Cards:**

Our primary correspondent banks offer secured credit cards (Visa or MasterCard). Our firm charges a processing fee of US\$100 for assisting in setting up of secured credit cards.

Secured credit cards require that the client place a security deposit in an amount equal to 150% of the credit limit chosen for their credit card. The security deposit is frozen in the corporate bank account (or CD/time deposit) until the card is closed, although the funds still earn interest while in the security deposit. As the credit card is used, the bank will automatically debit the entire monthly balance of the credit card charges from the remaining bank account balance at the end of the monthly credit card billing cycle.

Annual fees for credit cards start at US\$50 or more according to the type of credit card chosen. Silver, Gold, Platinum, and Airline miles credit cards are available for earning airline flight miles for credit card usage. American Express is also available through certain banks.
